LOCATION Bhilai, Chhattisgarh, India

SUMMARY

Motivated BCA (AI & ML) eager to learn. Skilled in data processing, AI applications, prompt engineering, basic machine learning, automation, and technical support. Track record of improving code efficiency by 30%, boosting user engagement by 40%, and building multiple full-stack web applications. Certified in AI, and Prompt engineering. Eager to apply these skills to real-world AI and data technology challenges.

EDUCATION

BCA (AI & ML) — Bachelor

Kalinga University, Raipur, Chhattisgarh

2024 - Pursuing

CGPA: 8.45

12th - Commerce

Sri Sankara Vidyalaya, Bhilai, Chhattisgarh

CBSE | 2021

CGPA: 7.58

10th - General

Sri Sankara Vidyalaya, Bhilai, Chhattisgarh

CBSE | 2019

CGPA: 7.58

TECHNICAL SKILLS

- Python
- Data Analysis & Visualization
- Pandas / NumPy
- Exploratory Data Analysis (EDA)
- Prompt Engineering
- HTML / CSS / JavaScript
- MS Office (Excel, Word, PowerPoint)
- Git & GitHub
- VS Code

LANGUAGES

Hindi (Native)

English (Professional Proficiency)

EXPERIENCE

Data Analytics Intern Jun 2026

Thiranex | Remote

- Built a Sales & Revenue Analysis Dashboard to track key business metrics and support data-driven decisions
- Conducted a Customer Segmentation project using data analysis techniques to identify distinct customer groups
- Applied predictive analytics on historical data to identify trends and forecast outcomes
- Automated data cleaning and reporting workflows, reducing manual effort and improving data accuracy

Full Stack Web Development Intern Aug 2025 - Sep 2025

Future Interns | Remote

- Boosted user engagement by 40% through targeted UX improvements
- Developed three web applications, enhancing team productivity by 20%

Python Development Intern May 2025 - Jul 2025

YBI Foundation | Remote

- Improved code efficiency by 30% through Python optimization techniques
- Completed hands-on projects covering core Python programming fundamentals
- Gained practical experience in data analysis and manipulation using pandas & NumPy library

PROJECTS

APMC Accounting & Billing Software

- Designing and building a billing and accounting system for APMC (Agricultural Produce Market Committee) operations
- Led end-to-end product design and logic; used AI-assisted development to accelerate implementation
- Structuring core modules for transaction tracking, billing, and reporting to support day-to-day APMC operations
- Applied accounting concepts from CA Foundation coursework to structure transaction tracking and billing modules

SalesIQ — Revenue Intelligence Dashboard | React, JavaScript, Recharts, HTML5, GitHub Pages

- Built a standalone, zero-dependency sales analytics dashboard using React, Recharts, and Client-Side JSX transpilation.
- Developed custom file-import logic with auto-column recognition using PapaParse and SheetJS to ingest CSV/Excel data seamlessly.
- Integrated responsive, real-time interactive UI features including filterable charts, KPI indicators, and a sortable, paginated data grid.
- GitHub: https://github.com/Lidentio/Sales_-_Revenue_Analysis_Dashboard

NASA Picture of the Day Viewer NASA Space Apps Challenge 2025

- Built a web app displaying NASA's daily featured image using their public API, using AI-assisted development to implement the design
- Designed the interface layout and user experience for browsing NASA's daily imagery
- GitHub: github.com/Lidentio/NASA_Space_Apps_Challenge_01

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Oracle University | Issued August 2025

- *Key Skills:* Artificial Intelligence (AI), Machine Learning (ML) Fundamentals, Cloud-Based AI Solutions, Oracle Cloud Infrastructure (OCI).

Machine Learning I

Columbia University (Columbia+) | Completed August 2025

- *Key Learnings:* Supervised and Unsupervised Learning, Model Training and Optimization, Data-Driven Methodologies.

Prompt Engineering & Programming with OpenAI

Columbia University (Columbia+) | Completed August 2025

- *Key Learnings:* Prompt Engineering, AI Programming, OpenAI API Integration.

Build a Computer Vision App with Azure Cognitive Services

Microsoft / Coursera | Completed August 2025

- *Key Learnings:* Microsoft Azure, Computer Vision API, Azure Cognitive Services, Cloud Computing, API Integration.

Data Analytics Internship - Thiranex, Jun 2026 (ID: THX-JUN0126-872)

Data Analysis and Manipulation with Pandas Bootcamp - YBI Foundation (Skills4India), Jun 2025

Data Pre-processing with Pandas Bootcamp - YBI Foundation, Jun 2025

Python Programming Internship (Batch-3) - YBI Foundation, May 2025

Python List Bootcamp - YBI Foundation, May 2025

KEY ACHIEVEMENTS & ACTIVITIES

- **Founder — Lidentio:** Established a student tech club; later restructured it as an independent personal brand/initiative, which was used to register and compete in NASA Space Apps Challenge 2025
- **Participant** - KU Hackathon, Kalinga University, Feb 2025
- **Winner** - MindMeld 2025: The Tri-Science Challenge, Faculty of Science, Kalinga University, Apr 2025 (ranked 1st, ahead of PhD and Master's participants)
- **Participant** - Coding Competition - Organized by Infinity Club, Faculty of CS&IT, Kalinga University, Jan 2025
- Hands-on Robotics Training - IEEE KU SB, Kalinga University, Sep 2024
- Value-Added Course - **Entrepreneurship** (40 hours), Kalinga University, Jul-Dec 2024

VOLUNTEERING

- Volunteer - International Conference on Emerging Technologies (ICETSIMD 2025), Kalinga University, Mar 2025
- Volunteer - KU Hackathon, Kalinga University, Feb 2024
